DEPARTMENT OF THE INTERIOR AND RELATED AGENCIES APPROPRIATIONS ACT, 1996—CONFERENCE REPORT

The PRESIDING OFFICER. Under the previous order, the Senate will now proceed to the consideration of the conference report accompanying H.R. 1977, which the clerk will report.

The legislative clerk read as follows:

The committee of conference on the disagreeing votes of the two Houses on the amendments of the Senate to the bill (H.R. 1977) making appropriations for the Department of the Interior and related agencies for the fiscal year ending September 30, 1996, and for other purposes, having met, after full and free conference, have agreed to recommend and do recommend to their respective Houses this report, signed by a majority of the conferees.

The Senate proceeded to consider the conference report.

(The conference report is printed in the House proceedings of the RECORD of December 12, 1995.)

The PRESIDING OFFICER. The Senator from Washington.

Mr. GORTON. Mr. President, would you state the conditions under which this conference report is being debated?

The PRESIDING OFFICER. When the Senate considers the conference report to accompany H.R. 1977, the Interior appropriations bill, time will be limited to 6 hours, 3 of which shall be under the control of the Senator from Washington, or his designee, of which 20 minutes shall be under the control of the Senator from West Virginia; and 3 hours under the control of Senators BUMPERS and BRADLEY, or their designees.

Mr. GORTON. Mr. President, the Senate is now considering the conference report on H.R. 1977, the fiscal year 1996 Department of the Interior and related

agencies appropriations bill. This conference report and accompanying statement of the managers appeared in the CONGRESSIONAL RECORD on December 12, 1995, on pages H14288 through H14310. This is the third conference agreement. The first conference report was recommitted by the House on September 28 due primarily to objections to the conference adoption of the Senate provisions on mining, which lifted the existing moratorium on issuing new patents. The second conference report was recommitted again by the House on November 15 due to objections to mining and Tongass National Forest concerns.

The agreements before the Senate today total \$12.235 billion in discretionary budget authority. The outlay scoring totals \$13.210 billion. The budget authority and outlay figures are precisely at the 602(b) allocation levels. The recommendations of this conference agreement represent a total decrease below the President's budget request of \$1.7 billion in budget authority and of \$949 million in outlays.

The conference report represents difficult choices and real cuts in spending—without scorekeeping adjustments—of \$1.4 billion below the fiscal year 1995 level or a reduction of 10 percent. Interior bill agencies do not share equally in the 10-percent reduction. For instance, the land management agencies are reduced by 14 percent; cultural activities are reduced by 15 percent; the Indian programs are reduced by 4 percent; and the Department of Energy agencies are reduced by 10 percent.

The Interior appropriations bill is a complex bill, providing funding for 40 agencies with very diverse programs. This conference agreement reflects a meshing of the budget resolution considerations, the administration's fiscal year 1996 priorities, the priorities of the Senate and House, and the concerns of individual Members. For example, the Congress and the administration place a high priority on the National Park Service and the Indian programs. Therefore, the National Park Service and the Indian programs are reduced significantly less than other programs and agencies within the bill.

Our conference addressed a considerable number of differences. There were approximately 900 items in disagreement between the House and Senate Interior appropriations bills. As in the past, this bill has received abundant attention and sparked debate within the Congress and the administration. This conference report represents an earnest effort to address many of the administration's objections to this year's Interior actions.

There may be programs which Senators would like to see funded at higher levels. On many, I agree. Certainly, the administration has indicated that it views funding for some programs as inadequate. However, I would remind these Senators and the administration of the funding constraints for this bill

and the difficult choices that had to be made. The conferees had to fund programs within an allocation that was 10 percent less than was available for the bill in fiscal year 1995. For every program that was reduced less than 10 percent, other programs had to be reduced by more than 10 percent.

Mr. President, I would like to highlight some of the items in the conference agreement:

INDIAN PROGRAMS

Programs for native Americans and Alaska Natives are funded at \$3,652,895,000 within the bill. Within the funding constraints, high priority was placed on the health needs of native Americans funded through the Indian Health Service and on Bureau of Indian Affairs funded elementary and secondary education programs.

The conferees restored \$111.5 million above the Senate level to the Bureau of Indian Affairs, resulting in an overall reduction for BIA of \$159.6 million, or 9 percent, below the fiscal year 1995 level for BIA activities. Funds were restored primarily to tribal priority allocations, which fund tribal government services.

Additionally, \$25 million has been added to the previous conference agreement for the Indian Health Service [IHS]. This brings the IHS 1 percent above the fiscal year 1995 enacted level.

LAND MANAGEMENT

Although the land management agencies have been decreased overall by 14 percent from the current level, the conferees have attempted to protect the operational base of the land management agencies as much as possible:

National Park Service: 0 percent.

Fish and Wildlife Service: -3 percent.

Bureau of Land Management: -5 percent.

Forest Service: -5 percent.

To assist with the growing recreation demands on the agencies in this bill, a pilot recreation fee proposal is included.

The construction accounts for the land management agencies have decreased \$85 million in total—20 percent. The majority of the construction projects involve the completion of ongoing projects and the restoration or rehabilitation of existing facilities.

Overall funding for land acquisition for the land management agencies totals \$140 million which is 40 percent below the fiscal year 1995 appropriations level. There are no earmarks for specific projects. However, the administration must obtain congressional approval for any projects to be funded.

NATIONAL BIOLOGICAL SERVICE

The Interior's biological research is placed under the Director of the U.S. Geological Survey. Funding of \$137 million is provided for the research activities, which is a reduction of \$35.7 million below the current level.

MINING AGENCIES

The conference report includes a compromise between the Senate and House provisions on mining patents.
